

Your checklist for a safer home!

Some hazards are easy to spot - others aren't so obvious. Try filling out this checklist in your home to help prevent an injury to your child. Why not think about using it in other houses they might visit?

Fire safety

- Matches and lighters stored out of sight
- Smoke detectors fitted and working
- Fireguard fixed to fireplace
- Fire escape plan made

Kitchen safety

- Your children kept away when cooking
- Curly or short flex fitted to kettle
- Cleaners, chemicals and medicines locked away
- Sharp knives stored securely
- Pan handles turned in

Hall and stairs safety

- Safety gate fitted
- Stairs kept clear of toys and clutter
- Bright lighting at night
- Stair carpet securely fixed

Living room safety

- Hot drinks kept out of reach
- Furniture moved away from windows to prevent climbing
- Alcohol kept out of reach of children
- Plug covers used to protect electrical sockets

Bedroom safety

- Medicines locked away safely
- Perfumes and aftershaves kept out of reach
- Upper bunks / cabin beds used by children over 6 only

Bathroom safety

- Children always supervised
- Cold water run in to bath first
- Medicines and cleaning chemicals locked away safely
- Hot water temperature reduced
