

**This service is funded jointly by West Lothian Council,
The City of Edinburgh Council and NHS Lothian.**

Easy Access

We've specified low floor easy access buses to be used on this service. These have wheelchair and buggy spaces, with priority seating for elderly and disabled passengers near to the front of the bus.

Travel Opportunities

The service 400 and X400 offers a range of travel opportunities, with direct links between West Lothian and South-East Edinburgh. The service is available to everyone over the line of route not just between the hospitals. Local passengers are most welcome.

E & M Horsburgh operate an exact fare system. If you are paying the driver (single fares or day tickets) please remember to have the correct change ready - for security and to speed up boarding times drivers are unable to give change for your journey.

National travel concession cards are welcome, giving free travel at all times.

SEStran One-Tickets are accepted.

Your comments

If you have any comments, complaints or suggestions please contact:
